Korrekturzüge

The image contains two identical diagrams illustrating the correct steering movements for driving into a parking space from the rear right. Each diagram shows a top-down view of a car on the left and a row of six parking spaces on the right. A steering wheel icon with a dashed line indicates the car's steering axis. In the top diagram, the car is moving forward, and a curved arrow indicates a steering correction towards the right. In the bottom diagram, the car is moving backward, and a curved arrow indicates a steering correction towards the left. To the right of each diagram are ten horizontal lines for writing.
